

Advisor

Phil Licari

Professor, Babson College

Managing Director, Innovation Operations, Partners HealthCare

Phil Licari is a Senior Lecturer of Technology, Operations and Information Management at Babson College. He joined Babson College in 2010 following 30 years of experience with rapid growth and early state medical device companies. His academic interests include operations management, global supply chain management, and healthcare supply chain management. In addition to his responsibilities as an educator, Phil is the Managing Director of Innovation Operations with Partners Healthcare.

Phil previously served as the Chief Operating Officer of ConforMIS, Inc., a venture funded producer of patient-specific orthopedic implants. Before that, he was the Chief Operating Officer of NxStage Medical, the high growth producer of a home dialysis system. Phil's experiences also include senior executive positions with Boston Scientific and Roche Pharmaceuticals.

Phil has been active with the Greater Boston Food Bank for many years, serving on the Board of Directors from 2004 until 2014 and serving on the Board of Advisors since 2014.

Phil holds a Bachelor of Science in Biomedical Engineering from Tufts University and a Master of Business Administration from the University of Chicago Booth School of Business.
